

Greenery Swags

Craft: Decorative Swags made of Greenery and “Pretties”

It's easy to make a swag to hang inside or outside. It adds some cheer to our often cloudy and dark winter days.

All you need is some greens, a bow, and some “pretties”. Along with wire or pipe cleaners to tie it all together.

Start by connecting the greens together by wrapping them with the wire or pipe cleaners.

Attach bows with wire (paper clips can also work) or ribbons.

Add small ornaments or other decorations to make it pleasing to your eye.

Feed some ribbon through the wire to hang it from a hook or other fixture. Or use more wire or pipe cleaner, whatever works best for your location.

If you hang it outside, it will last through the Christmas season. Inside, maybe not so long...

Enjoy!
