

African SMILE February 2022 Update  
A lot has happened since the beginning of this year.

#### Seed Corn

We send \$600 to Mike Kitwaka to support his request to buy seed corn. I received this picture last week. The seed corn will be planted at the Chardeleco leper community to help to provide a sustainable source for corn going forward. In the past we have bought corn that was distributed and consumed for food. This corn will both provide food and seed to plant in the next growing season. With success, we would like to expand this program the next season.

#### Iambi Nursing School:

We've sent funds (\$6,750) to support Iambi Nursing School's prepare for certification of their 3-year degree program that included buying computing equipment, e.book program and renovation of classroom and facilities and paying the fees for certification. We also send funds to support hiring two new teachers for about 8 months. They have a new website: <http://www.iambinursing.ac.tz/>, and they are in the final steps of hiring two new teachers.

I received receipts for all the expenditures and the following note with summary of expenses from Principal Joyce Lyanga.

"Hello Dan, its another good day to say good morning to you all. today we want to give you a final summary of money expenditure of Tshs.17,714,000/= as follows:-

Further more, we are very grateful to receive teacher's fund for salary Tshs. 15,961,300/= may the almighty God bless you so much for your giving.

The school looks so wonderful now and in two weeks time, we hope the Ministry of Health will come to inspect the school for giving us Diploma so that we can introduce other Health programmes in the school.

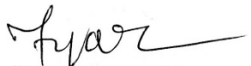

Lastly but not the least we have decided open a new Account in order to separate school income from our students and our friends. So please use this school New Account in case it favors you continue to support Iambi School of Nursing.  
Thank you in Advance.”

Iambi Lutheran Hospital Autoclave purchase and Eyecare treatments

“Habari rafiki.

We hope that this mail finds you doing well with your family, I promised you previous to find and send you that Eye programme at Iambi for April, May and June 2021, and this report involved data worked in two dispensaries belong to Iambi Hospital which is Isanzu and Tulya Dispensary see the Attachment, attached in this mail.

Joshua Vitus Ngiliule.”

The report included accounting of over \$500usd to apply prophylaxis eye treatment to 128 new born children, and nearly \$900usd to treat lepers and others in need in Nkungi village with preventative and corrective eye care last spring and summer.

Autoclave purchase:

We wired \$3,000usd to Iambi Lutheran Hospital to purchase an autoclave to sterilize surgical utensils for surgery and delivering babies. This purchase will avoid sepsis in surgical patients, newborns and their mothers.

Joshua Ngiliule showing Autoclave purchase and installation:

Plans:

Social Concerns budget in 2022 for on-going African SMILE needs and goals in order of priority we discussed in December 2021 include:

- \* Ensure we have funds to support on-going emergency food purchases for lepers and others in need in Nkungi village
- \* Explore fundraising to sponsor 3 teacher salaries at Iambi Nursing School for the remainder of 2022 (and maybe beyond?) - this would be \$500/mo. in 2022 for each teacher
- \* Fund on-going eye care to infants and others in the village as we are able
- \* Other needs brought to our attention through the year

We will convene a meeting of the sub-group of the Social Concerns team in March. Please let us know if you would like to join.

In Christ,

==> Dan
